EXPERIENCE

2012 2011 2010 2009 2008 2007 2006 2005

ISDgames '12 - present Director of Game Development

Promoted to Director of Game Development and have played a key role from inception to release for more than 20 shippable games.

Engineered an automated art pipeline which improved productivity by 2000%.

Engineered view object classes to auto-optimize which increased game performance up to 6 times.

Engineered and developed a functional, stateless view component architecture that simplified implementation, increased productivity, and further decoupled the view in our MVC architecture.

Shamrock Media '10 - '13 Developer / Graphic Designer

Developed multiple, profitable, web stores using a variety of technologies including, flash, php, and wordpress.

Designed and developed custom, easy to use, content management systems.

Designed and developed adobe air applications for digital signage and video communication.

Designed Logo for Cabarrus County's Locally Grown campaign.

Proposed the and won contract for the Sugar Mountain TDA board's website beating out 2 other local competitors.

ElectronX '05 - '12 System Engineer / Designer

Designed, proposed, installed and managed complex commercial, residential, and Industrial automation systems ranging to over \$100,000.

Designed custom simple interfaces for complex automation systems.

Obtained maintenance contracts from 2 of the 3 largest property management companies in the area.

Obtained contracts from some of Charlotte's most prominent companies, such as Hisho Sushi, Keller Williams Realty, ATD, Salon8, Label and Therapy Cafe.

ABOUT ME

I am a creator, an artist, a student, and a leader. I can't help but create, I am inspired by everything and my favorite medium is the computer. I believe an artist is someone who creates with passion. I am constantly looking for useful tools and knowledge to help me create more efficiently. I am a leader in my job and my community. I am perceptive, responsive, open-minded, motivated, involved and organized and I am looking to be part of something great.

EDUCATION

I am self-taught for the most part. I enjoy learning. I know how to find answers and I know I will only fail when I give up.

Completed Object Oriented Programming Certification course from CPCC in 2002.

Studied core curriculum with a focus on art at CCC&TI between 1997 - 2000.

Graduated Mount Pleasant High with the academic award in Chemistry.

I have skills!
